

**ITF DJ World Championships presented by PlayStation2 -
worlds biggest turntablism festival with the best djs of the world
will take place in Munich on 5th and 6th december 03**

Once again the ITF DJ World Championships 2003 will take place in Munich, Germany. Last year the event has been sold out, so the ITF Headquarters in U.S.A. decided to give the organisation once more in the hands of the ITF European Chapter, an event marketing agency settled in near by Munich.

Besides the dj battles which will find out who will be the ITF World Champions 2003 in the categories: Scratching, Beat juggling and Team as well as in the Overall discipline Advancement Class, a huge program all around turntablism will be arranged.

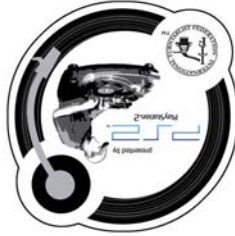

The eliminations take place in the "Forum am Deutschen Museum" on 5th december, the finals in each category will be battled out in the Muffathalle in Munich on 6th december.

More than 40 djs from 15 different nations will take part in the battles. They are all qualified through the national battles of each country. Five judges, Hype (ger), Woody (GB), Kodh (Fra), D-Styles and Toadstyle (USA), will look and hear for who does the most accurate, innovative and creative sets in each category.

And for all of those, who have enough experience from seeing battles, the Forum will present a technology fair with all relevant technology suppliers like Vestax, Sennheiser, Pioneer and so on, visitors will have the possibility to view films about turntablism or listen to lectures on history and future of this fascinating art. The entrance to the day programm is free.

If you want to buy tickets for the battles and understand german, please check: www.muffathalle.de oder www.muenchen-ticket.de.

If you have any questions, please do not hesitate to contact me under +49/8191/91180-70 or via mail under itf@eyes-wide-open.de.
